❖ water safety

The purchase of an aboveground pool provides years of pleasure and fun, but it also involves water safety. Although Zodiac cannot supply a full-time lifeguard, we strongly recommend that you implement the following safety rules. These will help provide a pleasant atmosphere for you and your family.

- NEVER jump or dive in an aboveground pool.
- Maintain constant adult supervision when children are in or near any body of water.
- Read all of the safety, installation, and maintenance information contained in the Zodiac instruction manual and water safety brochure before you start installing your pool.
- Ask your city about any specific rules and regulations that apply to aboveground pools.
- Follow the Zodiac instruction manual and maintenance instructions.
- Never remove applied or posted safety stickers or signs from your pool or pool area.
- Barriers to prevent unsupervised access, especially by young children, should be built, installed and checked on a regular basis to ensure they are in good working order.
- Inspect your Zodiac pool, barriers, alarms, and other related equipment on a regular basis in order to ensure they are in good working order and that they are safe.

Zodiac installation, maintenance and safety manuals contain detailed tips and recommendations. They must be read, followed and applied on a regular basis, as they will prevent unnecessary accidents and will ensure many summers of pleasant, safe family fun.
